

TIMILEHIN ORIPELOYE

Product Manager | Fintech, Marketplace & Growth

timilehinoripeleye@gmail.com | [Portfolio](#) | [LinkedIn](#) | +234 905 538 0387 | Lagos, Nigeria | Open to remote and relocation

PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience driving product development from discovery to launch across fintech, real estate, e-commerce, and travel. Proven ability to define product vision, write PRDs, manage backlogs, and lead cross-functional teams through agile delivery cycles. Founder of a fintech startup targeting African teens, with a track record of shipping products that drive measurable business outcomes — including an 80% traffic increase and a 65% revenue lift. Combines deep UX thinking with data-driven product decisions and strong stakeholder management to deliver products users love and businesses grow on.

CORE SKILLS

Product Management: Product Strategy, PRD Writing, Backlog Management, Sprint Planning, Roadmapping, OKR Setting, Product Discovery, Go-to-Market Strategy

Analytics & Growth: A/B Testing, Funnel Optimisation, KPI Tracking, Retention, CAC, LTV, Data-Driven Decision Making, North Star Metrics

Execution & Leadership: Cross-functional Team Leadership, Agile / Scrum, Stakeholder Management, Product Operations, User Research, Competitive Analysis

Design & Tools: UX/UI Design, Figma, Prototyping, Design Systems, Framer, Webflow, WordPress

Industries: Fintech, Real Estate, E-Commerce, Travel & Web3, Healthtech, Logistics

PROFESSIONAL EXPERIENCE

Product Manager / Senior Product Designer | CredBevy

Nigeria | Sep 2022 – Present | Primary role

Owned product strategy and execution for a fintech platform across two dashboards, a consumer mobile app, and a marketing website.

- Defined product vision and wrote PRDs for key feature releases, aligning engineering and design around shared OKRs and sprint goals each cycle.
- Led a data-driven UX overhaul informed by user research and competitive benchmarking, improving satisfaction scores and reducing onboarding funnel drop-off.
- Ran A/B tests on critical conversion flows, identifying a 22% improvement in activation rate from a simplified onboarding sequence.
- Managed product backlog and feature prioritisation, balancing user needs, technical debt, and business KPIs each sprint.
- Coordinated go-to-market strategy for key product launches across product, engineering, and marketing teams.

Product Manager / Senior Product Designer | Business in My Pocket (BiMP)

Nigeria | Jul 2023 – Jul 2024

Led product management and UX for a real estate marketplace management system, from discovery through agile delivery.

- Wrote PRDs and defined product requirements for a real estate marketplace platform, translating business goals and user research into a prioritised roadmap executed across quarterly sprint cycles.
- Managed the product backlog and led sprint planning with engineering, reducing feature backlog by 40% and improving release predictability over two quarters.
- Conducted user research and competitive analysis that surfaced 3 key opportunity areas, adopted directly into the product OKR roadmap.

- Led cross-functional teams across design, engineering, and business to ship releases on schedule, maintaining zero critical post-launch defects.
- Partnered with C-suite stakeholders on product strategy, owning stakeholder communication and product reporting from discovery through launch.
- Architected a company-wide design system that reduced design-to-dev handoff time by ~30%, accelerating overall delivery velocity.

Product Manager | Total IT Stores

Nigeria | Sep 2023 – Dec 2023

Managed product delivery for a full-featured e-commerce and repair booking platform serving consumer electronics — phones, laptops, and accessories.

- Defined product requirements and wrote PRDs for the e-commerce and repair booking experience, mapping user journeys from product discovery through checkout and booking confirmation.
- Led stakeholder workshops to align business conversion goals with UX decisions, reducing post-development revision cycles by streamlining requirements upfront.
- Coordinated delivery across design and development, managing sprint tasks and tracking progress against release milestones to ensure on-time launch.
- Identified and prioritised key funnel optimisation opportunities — including a simplified cart flow and improved search filters — aimed at improving conversion rate for repeat buyers.

Product Manager & Digital Operations Lead | Davino Group of Companies

Nigeria, Kenya, Guinea | Jul 2022 – Dec 2022

Drove digital product strategy and operations across a multi-country conglomerate spanning three African markets.

- Led end-to-end redesign and product strategy for company websites across Nigeria, Kenya, and Guinea, delivering an 80% increase in web traffic and a direct revenue uplift within 3 months of launch.
- Defined the product roadmap for the company's digital presence, prioritising features and content changes based on traffic analytics and stakeholder input.
- Streamlined digital operations — including email systems, CMS workflows, and digital asset management — improving team efficiency and cutting content turnaround time across three country teams.
- Managed vendor and developer relationships to ensure on-time delivery of web updates, acting as the single point of contact between business leadership and technical teams.
- Conducted market analysis across each country to inform localisation decisions, ensuring product experiences were relevant to each regional audience.

Founder & Product Manager | TeenPay Africa

Nigeria | Sep 2021 – Sep 2022

Founded and led a fintech startup building a financial empowerment app for African teenagers — from 0 to launch.

- Defined product vision, business model, and go-to-market strategy; set company OKRs and north star metric (monthly active teen users) for the founding team.
- Wrote all PRDs and led product discovery, user research, and sprint planning across a cross-functional team of mobile, backend, and frontend engineers.
- Managed the full product backlog from ideation to MVP launch, shipping on time and growing a pre-launch waitlist through community outreach.
- Identified product-market fit signals in the African teen finance segment and developed a monetisation roadmap aligned to growth targets.

Product Manager / Product Designer | Tidos Travels

Canada | Mar 2022 – Apr 2022

Led product design and requirements definition for a crypto-powered travel booking platform targeting a blockchain-native audience.

- Defined product requirements and user flows for a crypto-integrated travel booking experience, mapping payment UX across fiat and cryptocurrency transaction paths.

- Collaborated with blockchain, frontend, and backend engineers to ensure product specifications were technically feasible and aligned to sprint delivery timelines.
- Conducted user research to understand trust and friction points in crypto payment flows, translating findings into design decisions that reduced checkout abandonment.
- Delivered end-to-end product design from wireframes to high-fidelity prototypes within a 6-week engagement, meeting all agreed launch milestones.

Product Manager / Product Designer | XXOL Care

Nigeria | Aug 2021 – Mar 2022

Owned product design and growth strategy for a handyman and domestic services marketplace connecting consumers with skilled service providers.

- Led product discovery and user research to identify key drop-off points in the service booking funnel, translating insights into a prioritised set of UX improvements.
- Redesigned the core booking and conversion flows, contributing to a 65% revenue increase by reducing friction between service discovery and booking confirmation.
- Defined the product roadmap for the marketplace, sequencing features that balanced supply-side (provider onboarding) and demand-side (user acquisition) growth.
- Tracked key marketplace KPIs — booking conversion rate, provider utilisation, and repeat purchase rate — using data to inform sprint priorities each cycle.

Product Designer & IT Consultant | Blizzinvestment

Nigeria | Apr 2021 – Jul 2021

Designed and delivered a digital loan application platform on WordPress, modernising the company's lending operations.

- Defined product requirements and designed the end-to-end loan application experience, mapping the user journey from eligibility check through application submission and status tracking.
- Conducted user research with prospective borrowers to understand barriers to digital loan applications, using findings to simplify the form flow and reduce application abandonment.
- Built and launched the loan application website on WordPress, enabling fully digital loan processing and expanding the company's reach beyond walk-in customers.
- Streamlined internal digital operations — including document management and communication tools — improving loan processing efficiency for the back-office team.

EDUCATION

B.Eng, Mechanical Engineering — University of Lagos (UNILAG) | 2015 – 2020
